## Erratum: A case of anterior cerebral artery A1 segment hypoplasia syndrome presenting with right lower limb monoplegia, abulia, and urinary incontinence

In this article titled, “A case of anterior cerebral artery A1 segment hypoplasia syndrome presenting with right lower limb monoplegia, abulia, and urinary incontinence,”<sup>[1]</sup> published in pages, 189–191 of Vol. 7, Issue 1 of Journal of Neurosciences in Rural Practice, in Paragraph 4, under Figure 2, sentence 7, in the statement: “A1 segment hypoplasia is an uncommon fatal variant of the circle of Willis,” the word fetal was incorrectly spelled as fatal.

The correct sentence, therefore, should read as, “A1 segment hypoplasia is an uncommon fetal variant of the circle of Willis.” The originally published article has been corrected online on 26<sup>th</sup> April 2024.
