

SUPPLEMENTARY TABLE

Supplementary Table 1: The previous literature of both MCA occlusions with thrombectomies.

S. No.	Author, (year)	Comorbidity	Clinical feature	Age (years) and sex	Occlusion site		Mechanical thrombectomy (procedure)	Clinical follow-up (duration in days)
					Right	Left		
1.	Dietrich <i>et al.</i> (2014)	Atrial fibrillation and hypertension	Left side weakness with gradual progression to coma	72/m	M1	M1	Stent retriever+ aspiration	Minor deficits (14)
2.	Pop <i>et al.</i> (2014)	Not mentioned	Impaired consciousness	78/f	ICA	M2	Stent retriever	No deficit (30)
3.	Pop <i>et al.</i> (2014)	Not mentioned	Right side weakness	66/f	ICA	M1	Stent retriever	Severe deficits (90)
4.	Braksick <i>et al.</i> (2018)	Left atrial clot	Coma	76/f	M1	M1	No data	Coma (not mentioned)
5.	Larrew <i>et al.</i> (2019)	Myocardial infarction	Coma	Middle age(no proper data)	ICA	M1	Aspiration	Death (1)
6.	Storey <i>et al.</i> (2019)	Atrial fibrillation with withhold of apixaban for coronary angiography	Hemiplegia	64/f	ICA	M1,M2	Stent retriever+ aspiration	Minor deficits (3)
7.	London <i>et al.</i> (2019)	Atrial fibrillation and hypertension	Aphasia with right faciobrachial palsy	84/f	M1	M1	Stent retriever+ aspiration	Minor deficits (90)
8.	Heyworth <i>et al.</i> (2020)	Atrial fibrillation	Left side weakness	69/f	M1	M1	Stent retriever+ aspiration	Minor deficits (3)
9.	Wu <i>et al.</i> (2021)	Atrial fibrillation and ischemic cardiomyopathy	Coma	No data	M1	M1	Aspiration	No neurologic deficit but heart failure (3)
10.	Khanna <i>et al.</i> (2021)	COVID-19	Aphasia with right hemiparesis	67/f	M2	ICA terminus+ M1	Aspiration	No deficit (1)
11.	Present case (2022)	Atrial fibrillation	Quadriparesis	45/f	M1	M1	Aspiration	No deficits (4)

ICA: Internal carotid artery, MCA: Middle cerebral artery, M1, M2 segments of MCA
